monishkanna@DESKTOP-H7HK4MK:~$ mkdir Shopping
```

```
monishkanna@DESKTOP-H7HK4MK:~$ cd Shopping
```

2. Initialize a new git repo inside of the Shopping folder (make sure you're not already inside of a Git repo!)

```
monishkanna@DESKTOP-H7HK4MK:~/Shopping$ git init
```

3. Make a new file called yard.txt

```

4. Make another new file called groceries.txt

```

```

5. Make a commit that includes both empty files. The message should be "create yard and groceries lists"

```
monishkanna@DESKTOP-H7HK4MK:~/Shopping$ git add .
